

PROPOSAL / 21 SEPTEMBER 2026

AI TRAINING FOR LITTLE NEST

Prepared for **Nisha Bhandari** by **Alex Johnson, UnconstrainedED**

Practical training and tools for the admin and leadership team.

Seven participants. Three on-site sessions in Mumbai, followed by six online office hours. Lead teachers can join Session 3 and the opening hour of Session 1 at no extra fee.

Programme fee

Included	Standard / INR	Your fee / INR
In-person training 3 sessions of 3 hours	2,40,000	1,80,000
Curriculum and project work Custom curriculum, four tools and hand-off	3,00,000	2,25,000
Online office hours 6 sessions of 60 minutes	1,20,000	90,000
Total	6,60,000	4,95,000

25% founding-client reduction: INR 1,65,000.

Local delivery in Mumbai, with no travel or accommodation charges.

What Little Nest keeps

A scheduling assistant, a weekly supervisor-report workflow, a handwritten-notes-to-communication tool and a Microsoft 365 living-document setup, plus the tailored curriculum, prompt library, written data rules and hand-off guide.

Payment schedule

On confirmation, before Session 1	INR 2,00,000
After the three in-person sessions	INR 2,05,000
After the office-hours block	INR 90,000

Invoicing and tax treatment to be agreed with Little Nest's finance team.

Claude subscriptions / paid separately

Five Claude Team standard seats: approximately **INR 1,15,200/year** on annual billing. Seven seats are recommended so everyone has licensed access: approximately **INR 1,61,280/year**. Paid directly to Anthropic.

Based on USD 20 per seat/month, billed annually, at INR 96/USD. Estimates exclude applicable vendor taxes; confirm prices and exchange rates at purchase. [Claude Team pricing](#).

DELIVERY / DATES TO BE AGREED

HOW THE PROGRAMME WORKS

Sessions use Little Nest's own tasks and approved material. Participants try the tools between sessions and bring back what needs fixing.

Session 1 / Foundations and scheduling / 3 hours

Practise prompting, set up recurring work in Claude Projects, agree data rules and start the scheduling assistant. Identify an owner for each tool. Lead teachers may join the opening hour.

Session 2 / Data and the weekly report / 3 hours

Work with bookings, attendance and feedback; refine the schedule against a real week; build a repeatable supervisor report for human review.

Session 3 / Notes and living documents / 3 hours

Turn suitable handwritten notes into clear drafts, set up the Microsoft 365 workflow and create teaching resources. Lead teachers join this session. Hand over the tools and prompts, and draft a short note explaining AI use to parents for Little Nest to approve.

Follow-up / Six online office hours

Six 60-minute calls between Round 1 and April 2027, at times agreed across Mumbai and the U.S. Any team member can bring real work or questions; two calls are reserved by default for the tools needing most support.

Before we start

- Agree the three dates, seven participants, seat count and lead-teacher attendance.
- Name the Microsoft 365 approver and test permissions two weeks before Session 1. Activate Claude seats one week before.
- Share the supervisor-report template and name a data-hygiene owner. Choose the four tool owners in Session 1.

Microsoft 365 access and in-place updates depend on approved permissions and supported capabilities. If approval is delayed, start with approved copies and move the living-document setup to an office hour.

Boundaries and progress

A person reviews everything before it is sent. Safeguarding, decisions about children, staff assessment and childcare compliance stay outside the programme. Free accounts are for generic teaching material only, with no identifying child, family or staff data. These tools will not monitor or score staff.

Record a simple baseline in Session 1. By April, review time saved, eight consecutive weekly reports, one full scheduling cycle and regular independent use by at least four of the seven participants.

When I return to India in April 2027

We can look at how you want to build on the training and expand the foundation we have built together.
